

FAN INTEREST CONCENTRATED ON SECTIONAL

BIG CROWDS EXPECTED AT
EACH SESSION OF
NET TOURNEY

From all indications, the Greencastle high school gym will be "bursting at the seams" for every session of the sectional basketball tourney which will get underway Thursday evening.

Based on the draw, which was announced last week, most of the Putnam county "dopesters" have the Tiger Cubs and Fillmore's Cardinals clashing in the final game Saturday night.

Twenty-five hundred season tickets for the tournament are now in the hands of the county principals. These ducats are expected to all be gone by Thursday noon, the advance sale deadline.

Interesting contests are in store for hardwood court fans both Thursday and Friday nights. And, naturally, the semi-finals and final round Saturday afternoon and evening will attract huge crowds.

Belle Union's Panthers and the Russellville Bees will touch off the sectional fireworks at 7 p. m. Thursday.

The Bainbridge Pointers will take on the Greencastle Cubs in the nightcap.

Friday at 7, Reelsville and Cloverdale will tangle in what should be a rip-snorter.

Fillmore's veteran net aggregation meets the Roachdale Hawks in the second encounter Friday night.

Saturday afternoon, the two Thursday winners and the two Friday winners play in the semi-finals. The championship struggle will start at 8:15 Saturday evening.

Officials for the Greencastle sectional will be John Williams and Jerry Steiner.

The tournament schedule is as follows:

Thursday
7:00—Belle Union vs. Russellville
8:15—Bainbridge vs. Greencastle
Friday
7:00—Reelsville vs. Cloverdale
8:15—Roachdale vs. Fillmore
Saturday
1:00—Winner Game One vs. Winner Game Two
2:15—Winner Game Three vs. Winner Game Four
8:15—Winner Games Five vs. Winner Game Six

Mrs. Cassidy To Organize Class

A class in beginning dressmaking will be organized by Mildred Cassidy, home demonstration agent on Monday afternoon, Feb. 28 at 1:30. The meeting place is the community room of the Public Service Company on South Jackson Street.

The class will meet one afternoon a week for five weeks. Class time will be devoted to instruction, fitting and demonstration. All individual construction will be done at home between classes.

It will not be necessary to bring material and pattern for the first meeting. No admission to the class will be granted except to those who are present for the first meeting.

TWO ARRESTED

Two persons were arrested on drunken driving charges and lodged in the Putnam county jail Monday night.

State police booked Malcolm Williams, 38, Indianapolis, at 8:30 p. m.

City police booked Virginia Chadd, 25, at 10:25 p. m.

20 Years Ago

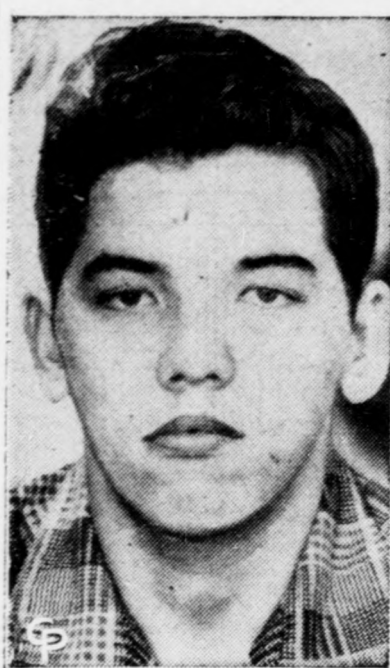

HERE AND THERE

Piercy Allee returned home from the Billings hospital in Chicago.

Fire destroyed the Ben Blaydes farm home in Jackson township. Jack Denman was here from Cincinnati.

About 250 chickens were lost when a brooder house burned on the James Henry farm in Madison township.

Extortion Plot Foiled

Thomas Bialczak, 18, of 5128 Park Road, was arrested at the Elmer Theater, 3231 N. Cicero, where he has been working as an usher the past two years. He has confessed the writing of extortion letters to four Chicago families threatening to kill their children. The families were instructed in letters to leave the money in an envelope with the regular box office ticket seller, then place the claim checks they would receive at a "No Smoking" sign in the theater lobby. All extortion letters to the families were signed "The Count."

Injuries Fatal To Brazil Woman

Injuries suffered in a two-car crash on U. S. 40 Sunday night proved fatal to Mrs. Martha Melissa Lee, 37, at the Putnam county hospital Monday afternoon, shortly before 3 o'clock.

Others in the Brazil group that were injured, Mrs. Cora May Tabor, 60; Gertrude Lee, 17, and Martha Elaine Lee, 6, were reported "fairly good" Tuesday morning. Five-week-old Cindy Lynn Lee was dismissed from the hospital Monday. Mrs. Patricia Dickerson, 25, triplet, riding in the other car involved with her husband, Bryan M. Dickerson, was also listed as "fairly good."

The accident occurred when the dead woman lost control of her auto which veered across the parkway between the dual lanes and collided with the Dickerson car in front of the Henderson turkey farm.

Asian Defense Parley Opens

BANGKOK, Thailand, Feb. 22. (UP)—Secretary of State John Foster Dulles arrived today to seek "peace and freedom" in Southeast Asia, but delegates to the Southeast Asia Defense Treaty (SEATO) conference predicted an Anglo-American clash over methods.

Dulles and British Foreign Secretary Anthony Eden were expected to clash over the best methods of dealing with the Formosa crisis—which has top billing here—and over implementation of SEATO's Pacific charter guaranteeing freedom for all.

The SEATO conference opens here Wednesday for three days and Communist China already was making it as difficult as possible. Red broadcasts told Asian nations the United States would try to get Asians to do the dying for "U. S. aggression in Asia."

Peiping China also was expected to make a major attack against one or more of the Nationalist-held off-shore islands in hopes of throwing the SEATO conference into confusion.

Diplomatic quarters, in predicting a clash between Britain and the United States over Formosa, predicted Australia and the Philippines would side with the Americans against what they feel is a British policy of playing into the hands of Red China.

The Australians were expected to take an even stronger stand than Americans on the demand for "no more retreat in Asia."

CUB SCOUT MEETING

Cub pack No. 95 will hold pack meeting tonight at Presbyterian Church at 6:30. A pot-luck supper will be served at 6:30 and all Cub Scouts and their parents are urged to attend and bring a covered dish.

The Charter will be presented and all Cub Scouts registered in the pack will receive their bobcat pins.

DPU STUDENTS WILL OBSERVE ASH WEDNESDAY

MUSIC TO BE FEATURED
AT UNIVERSITY
CHAPEL

During an Ash Wednesday chapel tomorrow in Gobin Memorial church, DePauw students and faculty members will be featured in a program of music and meditation.

The program, which will begin at 10 a. m., has been arranged by Dr. Van Denman Thompson, director of the DePauw School of Music.

Performers will include Mrs. Patience Berg and Edward Filmanowicz, violinists; Mrs. Bernice Grubb, harpist; Cessie Grubb, cellist; James Mitchell, tenor; and Dr. Thompson, organist.

Also heard will be the DePauw University choir, under the direction of George W. Gove. Filmanowicz and Mitchell are students, and all other soloists are members of the music school faculty.

Selections will include Dr. Thompson's "Mood of the Soul," a musical setting of the 23rd and 42nd Psalms, and a choral work, "Into the Woods My Master Went," with music by Dr. Thompson and words by Sidney Lanier.

Opening the program will be a period of meditation, featuring the Andante from Concerto in A minor for two violins and organ and the Lento from Concerto in D minor for cello and harp, both by Vivaldi.

Final work will be Dr. Thompson's organ portrayal of "Jesus Dies upon the Cross," by Dupre from the Gospel of St. Matthew.

Cloverdale Post To Enlarge Home

The Hurst-Collins American Legion Post at Cloverdale is planning a new addition to its home. They plan a \$25,000 addition, which will provide a recreation center and auditorium for the community and will also give the Legion Post and the Auxiliary additional facilities that they have not enjoyed heretofore.

The proposed building will include a full basement and a one floor above the basement room. The exterior will be of stone and brick veneer. It will contain kitchen and dining room facilities on the first floor and the recreation center will probably be in the basement rooms. H. C. Calender of Greencastle has drawn the plans for the new home, which will be a much needed center for the Hurst-Collins Post as well as for the entire community of Cloverdale.

Congress Gets Road Program

WASHINGTON, Feb. 22. (UP)—President Eisenhower sends Congress today his multi-billion dollar highway construction program which already has drawn sharp criticism from Democrats.

The White House indicated the President's proposals will follow closely those recommended recently by his special advisory committee on highways headed by retired Gen. Lucius D. Clay.

That group suggested a 10-year program costing an estimated 101 million dollars to supplement present federal aid funds.

Opposition has centered on a plan for raising 25-billion dollars of the total through the sale of bonds by an independent government agency. The interest bill on the 30-year bonds would be an estimated \$11,548,000,000, but the agency's indebtedness would not become a part of the national debt, the administration contends.

The Clay Committee also proposed that states, in matching federal funds, be given financial credit for toll roads. This, too, has drawn criticism, not only from Democrats, but also from some Republican governors.

President Eisenhower called Democratic and GOP members of the House and Senate Public Works Committees to a conference (Continued on Page 2)

MAYOR'S PROCLAMATION
Whereas, there are conditions of tension and uncertainty in the world today, and it is recognized that the many problems confronting us can be solved only with the help of Almighty God; and

Whereas, February 25, the First Friday of the Lenten season has been declared a worldwide day of prayer in one hundred and four countries;

Now, Therefore, I, Evan Crawley, Mayor of the City of Greencastle, do hereby proclaim February 25, 1955 as a Day of Prayer.

For a better world for all people to remember the needs of our nation, and all other conditions, as we bow our heads in reverent acknowledgment of our dependence and reliance upon Almighty God, and I urge everyone to pause in their work for one minute, to ask that God give us that hope that is in Christ Jesus, light to guide us, courage to support us, and love to unite us.

Given under my hand and the Executive Seal this twenty-first day of February, A. D., 1955.

Evan Crawley, Mayor

Senators Pass Seaport Measure

INDIANAPOLIS, Feb. 22. (UP)—Indiana senators laid the groundwork for construction of a huge seaport along the Hoosier shore of Lake Michigan late Monday.

They passed, 40-3, and sent to the House a bill appropriating 1.5 million dollars to buy land for the port and creating a nine-man commission to operate it.

In the House, meanwhile, there were behind-the-scenes attempts to take the sting out of an anti-toll road bill and to answer, in advance, Senate objections to 19-year-old voting.

Both chambers approved higher salaries for some local officials.

The port bill would purchase land for harbor facilities to serve ocean-going ships once the St. Lawrence Seaway is opened in 1959. It would be about a 30 million dollar project, with the state and federal governments sharing the cost.

State-advanced funds would be returned from bond sales, much like the State Toll Road Commission operation.

"This bill might prove one of the most important pieces of legislation in this session of the Legislature," said Sen. John Van Ness, R-Valparaiso. "It might result in one of the greatest industrial developments in Indiana history."

He said the money will be used to buy land at a site approved by Army Engineers and by an independent state study. Prominently mentioned is Burns Ditch in Porter county.

"If Indiana doesn't show its good faith by putting up the money now, I doubt whether the state will get a harbor," Van Ness said, "and if Indiana doesn't act, Chicago will."

Suffers Painful Finger Injuries

Jonathan Houck suffered severe injuries to three of the fingers on his left hand Monday afternoon when a small grain auger he was using was started accidentally while he had his hand on it. Three fingers were badly mangled, but the attending surgeon figured they could be saved and he may not suffer permanently from the accident.

He was taken to the hospital where his condition was reported good today.

Naomi Bailey Called By Death

Mrs. Naomi Bailey, a former resident of Greencastle, passed away Monday afternoon at General hospital in Indianapolis. Death followed a long illness.

She is survived by her husband; one son, Joe Bert; one brother, Martin Smith; and one half-sister, Mrs. Jenny Allison, both of Greencastle; and a sister, Mrs. Josephine Rankin of Indianapolis.

ROACHDALE PLANS BAND NIGHT IN H. S. GYM

Roachdale Band Club promises an evening of fun for everyone on Friday, March 4 at the gym. Beginning at 7:00 p. m. the scrappy grade teams will play followed by a thrilling game, parents vs faculty. Come on, dads, let's get in training. During the evening there will be plenty of good home made candy and popcorn. And a host of lovely home-made cakes for your selection. A cake walk and finally the drawing of the No. on the dressed hog. Come and support your band.

Dollar Day Is Planned Friday

One of the best Dollar Day events held in Greencastle is the offering for Friday, Feb. 25th. Sponsored by the Greencastle Chamber of Commerce, according to advance reports, the sales event will see the participation of the majority of merchants in the downtown district.

Some of the stores will have a variety of items of merchandise on sale for Dollar Day, whereas some of the stores will feature only one or two items for the day. Since this Dollar Day has been planned well in advance, special merchandise orders were placed by the merchants and should offer some truly remarkable bargains.

Some merchants are injecting a little humor, and are offering "treasure chests," for \$1.00, all of which contain varieties of merchandise worth considerably more. This element of chance will appeal to some Dollar Day shoppers.

Five Governors Favor Toll Road

EVANSVILLE, Ind. Feb. 22. (UP)—Five governors of the central states went on record today as favoring a nation-wide toll road network to facilitate the rapidly growing highway traffic.

They also called for construction of seaports along Lake Michigan to handle ocean-going vessels once the St. Lawrence Seaway is completed.

The governors, following a transportation conference here Monday, declared in a joint statement the further economic growth of the country hinges to a large extent upon the steps taken to improve and enhance our present system of transportation.

Taking part in the discussions were Govs. William Stratton of Illinois, Frank J. Lausche of Ohio, Victor E. Anderson of Nebraska, Lawrence Weatherly of Kentucky, with Indiana's George N. Craig the host.

Also attending were about 200 other officials, including those from Iowa, Michigan, and Alabama.

The governors urged Congress to speed completion of the Seaway, saying opening the Great Lakes to ocean traffic "will usher in a new era of economic advancement of the nation."

They added completion of the Seaway will require additional port facilities "on the southern tip of Lake Michigan."

"We further urge the Congress to implement the necessary 10-year national highway program proposed by President Eisenhower... to meet the evermounting demands upon our present inadequate highway system."

The governors also urged states to build tax-free toll roads in cooperation with each other and the federal government "wherever careful study indicates such roads will aid the economy of a particular state and where these roads may be economically feasible."

ELKS NOTICE

Eight candidates will be initiated tonight at 8 o'clock during the meeting of the Greencastle Elks Lodge No. 1077.

DIES OF INJURIES

LAFAYETTE, Ind. Feb. 22. (UP)—Mrs. Beulah Runyan, 61, Lafayette, died in St. Elizabeth Hospital Monday, a week after she was severely injured in a two-car wreck on snow-covered U. S. 421 north of Reynolds.

EDITOR VISITS MEXICAN SCHOOL OF TECHNOLOGY

INSTITUTE IN MONTERREY
WAS FOUNDED ONLY
11 YEARS AGO

The Institute of Technology of Monterrey, Mexico was founded only 11 years ago by 37 business men in that city. It now has enrolled more than 2500 students, is co-educational, and is the main technical school in Mexico. Beautiful new buildings, probably a dozen of them, are now completed and others are being erected.

A visit to the school by a Daily Banner representative last Friday shows what good will is doing. Commodore Larry Carroll met us promptly at four o'clock at the gates to the school. We were shown through many departments, and then went to the home of Mr. Carroll, who is a go-between public relations official, who travels through the country and the United States. Mrs. Carroll, a very gracious hostess, insisted on serving refreshments and a delightful visit soon brought the time to six o'clock. Commodore Carroll is a retired United States Navy official and new many commanders and admirals, including Admiral Ridley McLean, who originated in Greencastle.

The Instituto Tecnológico de Monterrey has become a direct influence in Pan Americanism through the Summer School, and through association with colleges and education organizations in the United States.

In December 1950, the Instituto was admitted into the Southern Association of Colleges and Secondary Schools, and in April 1951 became a member of the Association of Texas Colleges. Since that time Ing. Victor Bravo Ahuja, Director General, and other officials of the Instituto, have taken part in the meeting of these Associations. They have become well known to the educators who attend them. Since that time Commodore Carroll has made frequent trips each year to many colleges in these Associations, meeting presidents, deans and professors, and making the Instituto a reality to the leaders of these colleges. He carries the friendship of the Instituto to these schools and in return brings back their always friendly responses.

There is a definite place in the field of education of the North American Universities for extension courses in certain careers in a Spanish speaking country; this service is given with proficiency in the Summer School. The Instituto seeks affiliation with from thirty to thirty-five colleges in the United States which desire this service. Already this plan is well advanced. These affiliated colleges send groups of students with their professors, year after year.

The Summer School is thus a strong force for mutual understanding. The teachers and students who come, see the Mexican way of life, and give our teachers and students the opportunity to know neighbors from across the border. Lasting friendships are formed. Many talk of Pan Americanism, many write about it, but the Instituto Tecnológico de Monterrey is practicing it.

Second Atomic Shot Is Fired

LAS VEGAS, Nev. Feb. 22. (UP)—The second shot of the 1955 atomic test series—one which scientists said would be "very interesting"—goes off today at the Nevada proving grounds.

The Atomic Energy Commission announced after a weather evaluation meeting Monday night that conditions appeared "stable" and the outlook was favorable. Further weather briefings were scheduled.

The blast, believed to be of medium size, was to be touched off atop a 300-foot steel tower. Some 200 Army, Navy and Air Force observers were stationed in trenches 2½ miles from ground zero. No troop maneuvers were planned, however.

As was the case Thursday (Summary On Page 3)

HE'LL TRY

Ex-Premier Edgar Faure, a lawyer and moderate radical socialist, was asked by French President Rene Coty to try to form a government that would end France's two-week-old cabinet crisis. Faure, a mystery story writer who served as Premier for five weeks in 1952 and Foreign Minister in the outgoing cabinet, was picked by President Rene Coty as the fourth man to try to break the current crisis. His National Unity plan would bring all non-Communist parties into the government.

EXTRA!

A zero cold wave threatening new blizzards swept today towards storm-battered mountain and Great Plains states.

Yukon air from Canada was expected to drop temperatures to 10 degrees below zero in much of Montana, Wyoming and Colorado today and Wednesday.

In addition, a storm of blizzard intensity was expected to be making eastern Montana by dawn today.

The cold wave was expected to sweep eastward in the path of a devastating weekend blizzard which piled drifts 20 feet high and left 43 persons dead and another missing and feared dead.

Warnings of zero temperatures, plus snow and whipping winds were issued for parts of the Dakotas and Nebraska.

TAIPEI, Formosa, Feb. 22. (UP)—The Chinese Communists attempted to invade Nanchi Island today but Nationalist air and naval forces "crushed the attempt," Nationalist military sources announced.

The Nationalists gave no details of the reported invasion attempt by 4 a. m. EST, nine hours later.

The Air Force said it sank "several" Communist gunboats off Traishan Island in later attacks and that "attacks are continuing" against "constantly increasing" troop and ship concentrations at nearby Pishan and Peilung islands.

Nanchi, 120 miles north of Formosa, is now Generalissimo Chiang Kai-shek's northernmost island outpost.

WASHINGTON, Feb. 22. (UP)—Some Republican leaders conceded today that a Democratic plan to cut income taxes will pass the House this week despite administration protests.

The plan would give every taxpayer a \$20 tax cut next year and an additional \$20 for each dependent. This would amount to \$100 for a married man with three children—or almost \$200 a week under the payroll withholding plan, starting next Jan. 1.

The House Ways and Means Committee approved the tax cut, 15 to 10, Monday amid a barrage of partisan charges and countercharges. The vote followed party-lines closely, with only one defection from each side.

Republican leaders promised to fight the tax reduction when it comes up for House debate Thursday, but they conceded it may be a losing battle. They thought chances for killing it will be better in the Senate, where the opposition of Sen. Harry E. Byrd, D-Va., could swing several other Democrats against it.

PUBLIC INVITED

The public is cordially invited to attend the American Legion Sixth District oratorical contest to be held in room 318, Harrison Hall, DePauw, on Wednesday, Feb. 23rd, at 7:30 p. m. The Cassell C. Tucker Post 55 will be host to the high school orators

LONG SESSION BY COUNCILMEN MONDAY NIGHT

WATER WORKS OPERATION
RESULTS IN LENGTHY
DISCUSSION

With the exception of Councilman N. L. Donelson, 11 members of the city family were present for Monday night's regular meeting. Some one had taken the clock out of the council chambers and as a result, the meeting dragged on until nearly ten o'clock.

The claim ordinance, totalling \$536.39 was passed unanimously. The long, drawn out discussion came when O. J. Stewart of the Water Works, presented seven pages of figures on the water works, and asked the council to sanction a change of investments in government bonds, where by the department could get around the original purchase ordinance, whereby about 40 per cent of the income from the plant goes for operating expense, some 50 per cent goes to pay outstanding bond issues and 10 per cent goes for depreciation.

For some time, the water department has violated the original ordinance and this one more time they thought wouldn't make any difference, in as much as five times the sum required to retire bonds per annum, is being placed in a fund and at present the department has \$136,000 in this retirement fund that isn't being used.

One paragraph of the seven page document says: "The purpose of the within schedule is to permit the Department of Water Works to be aided in the operation of its fund account by reduction of the reserve for redemption bond interest and redemption from the fifty per cent now being claimed to the percentage necessary under this schedule."

The report showed there is an outstanding balance of \$331,000 due on the water works, but Mr. Stewart reported this will be paid off by 1969 instead of by 1974 as provided in the purchase agreement, if the new schedule is followed. This is five years ahead of the proposed schedule. Mr. Stewart told of needed expansion plans and said it will cost considerable. He said that unless this schedule is followed, it will mean the Water Board will have to come before the council many times and ask for operation funds, such as has been the case in the past.

The council voted to go along with the proposed schedule.

The Water Department is also operating under the Social Security law and this was also sanctioned by the council.

The Planning Commission proposed an amendment to the Zoning Ordinance, pertaining to corner lot building. The council reported it would have to go back to the Zoning Board, who in turn must advise for recommendations to such a change and hold public meetings.

A contract for bituminous materials was let to W. C. Harbus and Sons, Terre Haute. The cost was slightly higher than for last year.

Councilman Robert Dean of the Park Board proposed that the city buy the Mrs. Nellie Arnold home at the corner of Bloomington and Tennessee streets as an addition to the city park. He said it would be a good addition in the years to come. The city attorney was instructed to find out how the city can buy it before the next council meeting.

National Clean up week will be held from April 25, for one week. Mrs. Betty Coyner was president, representing the League of Women Voters.

Today's Weather Local Temperature

Dismissed: Mrs. James Garrison and son, Coatesville; DeLaney, Williamsdale; Marjorie Bowman, Cloverdale; Cindy Lee, Brazil.

SOCIETY

Shinn-Heller Wedding Announced

Announcement has been received of the marriage of Miss Edith Heller, of Los Angeles, Calif., and Cloral Eugene Shinn, of Greencastle R. 2.

Miss Heller is the daughter of Mrs. Rose M. Heller, of Los Angeles, and Mr. Shinn is the son of Mr. and Mrs. Cloral Shinn, of Greencastle R. 2.

Mr. Shinn is branch manager for the Hoover Co. at San Francisco. They are residing at 101 Point Lobos, Apt. 202, San Francisco, Calif.

Two-Day Discussion For Club Leaders

How to choose and how to accessorize a basic dress or suit was the topic under discussion by Miss Frieda Stoll, extension specialist from Purdue University on Thursday and Friday, Feb. 17 and 18. The lesson was presented to lesson leaders from all the 27 home demonstration clubs in the county as a part of their scheduled program.

The basic costume is the backbone of a well planned wardrobe. It should be simple in design, a good basic color and suited to one's personality and use. It should be easy to care for, well made and present possibilities for the use of a variety of accessories.

Jefferson Club Meets With Mrs. Floyd Keck

The Jefferson Home Demonstration Club will meet Thursday, Feb. 24 at 11:30 with Mrs. Floyd Keck. Mrs. Mildred Cassidy will give the lesson on Low Calorie Salads. Members note the change of time.

Mrs. Gene Hirt To Be Club Hostess

The Happier Homes Home Demonstration Club will meet Thursday at 7:30 p. m. at the home of Mrs. Gene Hirt, 619 East Washington street. All members interested in copper tooling please attend.

Mrs. Harvey Hostess To Chez Nous Club

The Chez Nous Home Demonstration Club met at the home of Mrs. Robert Harvey on Thursday, Feb. 17.

The meeting was opened by Mrs. Jack Beck. Mrs. Stanley Murdock read the history of the "Battle Hymn of the Republic" which is the song of the month. The group sang in unison.

Mrs. Robert Poorman read the secretary and treasurer reports. Mrs. Jack Beck gave a very interesting lesson on "Fitting and construction in buying ready made dresses."

Roll call was answered by eleven members. One guest.

Trio Repudiate Red Testimony

WASHINGTON, Feb. 22. (UP)—The government had its hands full of admitted liars today on this 223rd anniversary of the great American who could not tell a lie.

Of immediate concern were three turnabout government witnesses—Harvey Matusow, Mrs. Marie Natvig, and Louis Watson. All have confessed to

bearing false witness in Communist investigations or trials.

The Justice Department, announced late Monday that it had ordered a grand jury investigation of testimony given by Mrs. Natvig, a 51-year-old grandmother from Miami Beach, who last fall linked publisher-broadcaster Edward O. Lamb with Communist activity.

Mrs. Natvig repudiated her sworn statements two weeks ago and said "only an idiot" would have believed her earlier story. The grand jury investigation

was revealed after Mrs. Natvig was excused as a government witness in a Federal Communications Commission hearing on renewal of Lamb's Erie, Pa., television station license.

In her repudiation Mrs. Natvig said she even lied when she claimed past membership in the Communist Party.

Matusow, who is compiling his self-confessed lies in a book, said he once was a Communist but has left the party.

Watson, a Kansas dairy farmer whom the FCC called as a wit-

ness against Lamb and now wishes it hadn't, also stuck by his story that he is a reformed Red. He repudiated almost everything else, including testimony that Lamb was a contributor to Communist causes in the 1930s.

Jazz Combo To Play At DePauw

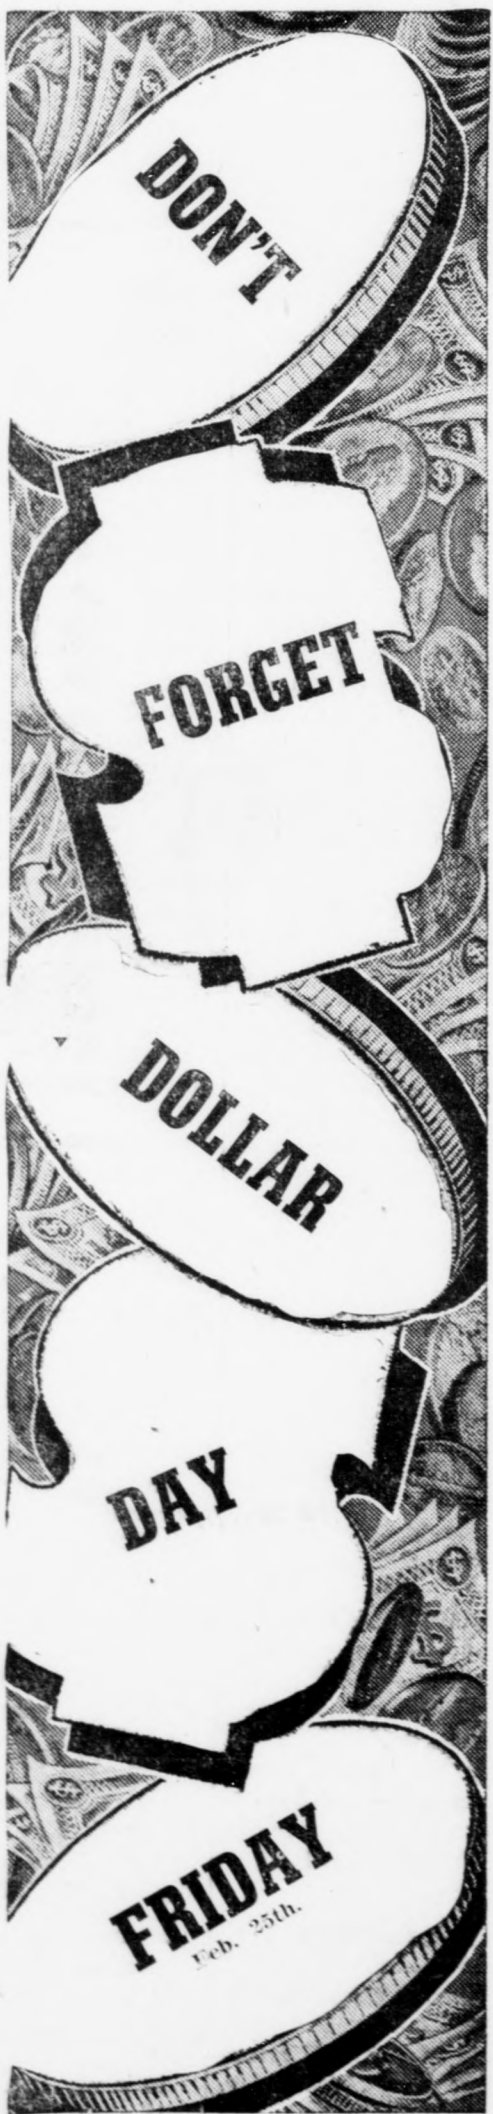

America's leading jazz combo, the Dave Brubeck quartet, will appear in a concert on the DePauw University campus Monday, March 1, in Bowman Memorial Gymnasium.

Sponsoring the two-hour concert here is the DePauw chapter of Alpha Delta Sigma, national advertising fraternity, which will donate its proceeds to a charitable organization.

There will be no reserved seats for the program, which is scheduled to begin at 8 p. m.

Featured in recent issues of Time and Life magazines, Brubeck's group has created a brand-new style of music and was named by Downbeat magazine in its 1954 poll as the number one jazz combo.

In addition to Brubeck, the combo features Paul Desmond, alto sax; Ron Crotty, bass; and Joe Dodge, drums. One of its most recent appearances in the Midwest was at the Blue Note in Chicago.

FAIRLY SPOKEN

Suggesting Ike Recall
MacArthur As Adviser
Dear Mr. President:

They say you are such a busy man these days you can't possibly read all your mail, so perhaps you will not see this. We know you are busy—how could we fail to? And most of us have complete confidence in you at a crucial moment of not just our future, but that of the world. Many of us would like to help you in any way we could, but we feel pretty helpless about doing anything more than just carrying on our own jobs the best we can.

The reason for this letter is that a lot of people feel there is someone who could help you, a man of proven stature and experience, a man who now is—well, you might say he is sort of "between engagements." He is employed, yes. But while his present job is a dandy, one which requires his best efforts, still it does not require the highest potential of which he is capable.

As a matter of fact, Mr. President, he had a birthday not long ago. And if that celebration had had a six instead of a seven in the total he might have been tempted to send in his application for the job you so capably fill today. For this was his 75th birthday.

The man I speak of is General Douglas MacArthur.

Some of us wish his words "I Shall Return," spoken at a time none of us will forget, could be used in another way. We fervently wish he could return to the service of his country, which, if it ever needed him, needs him now.

Without reflecting upon any man who wears four stars, we feel that MacArthur is a Gen-

eral's general, a man who knows the Far Eastern situation like few others, and who understands the American situation mightily well, too. (We've had a few civilian experts, as you are aware, who have known one to the exclusion of the other.) It seems to us that Douglas MacArthur's entire career, his penetrating mind and wise judgment, unless called back in an advisory capacity, will have been wasted in a tragic way.

If you, Mr. President, wanted invaluable counsel from any man, you are big enough, wise enough, to ask for it. We don't believe you would let any consideration—political, inadvertent, or who outranks whom—stand in your way.

We believe General MacArthur could not only save Asian "face" in resolving the powder keg situation confronting us in the Far East. We believe he might save thousands of young American lives, as well.

Will you recall him to active duty? Very active duty, very soon? With the greatest respect, Sir, we ask.

SOCIETY

Mrs. George Anthony, was present.

The next meeting will be held at Mrs. Robert Poo-man's.

Mrs. Thomas Tiffie Hostess
To Dorcas Class

The Dorcas Class of the Putnamville church met at the home of Mrs. Thomas Tiffie for their February meeting.

The hostess gave the devotions taken from the Book of Ruth. Also the great love stories of the Bible, which was very interesting. Mrs. Essie Boyd gave the scripture lesson taken from Matthew. Response to roll call was a verse from Exodus.

A valentine exchange was enjoyed by the group. The valentine theme was carried out in the several contests given by the hostess, also, in the delicious re-

Winners of the contests were Lucille Whitman, Herberta Sutton, Blanche Whitten. There were eleven members, four guests and two children present.

The March meeting will be a luncheon to be held at the Old Trail Inn.

—ATOMIC TEST

when the first shot was fired, today's experiment was a substitute for a "grand-daddy" sized explosion which has been postponed for seven days because of adverse weather conditions and the danger of radiation fall-out.

Today's device was believed to contain force equivalent to from 15,000 to 25,000 tons of TNT, while the big device is probably in the 50,000-ton category.

One scientist said today's explosion should be "very interesting" but refused to elaborate further.

With a clear sky, it was likely the blast would be seen in three states—Nevada, Utah and California.

Some of the convenient, automatic features of electric washers and dryers are utterly amazing. Many models have controls so flexible that any part of the laundering cycle can be started, stopped, repeated or eliminated to meet the needs of the type of clothes and fabrics being washed. You can set the washer for any washing time, and still get complete rinsing action. Several automatic electric washer models have a special setting for pre-washing and conditioning clothes. About all you have to do is load and unload; your automatic electric laundry equipment does the rest.

The newer electric dryer models can be set for all types of drying action, including special settings for the new synthetic fabrics that require a minimum of time and temperature for safe drying. Some models play a chime-like tune at the end of the drying period to remind you to remove the clothes while they're still fluffy.

Start enjoying effortless, care-free washdays. Do your laundry the automatic, electric way.

The Story that Silence Tells!

You'll probably never hear a 1955 Cadillac! It is so wonderfully quiet in operation that you can detect only the soft whisper of the wind... and, occasionally, the pleasant song of the tires on the pavement.

Insofar as the car itself is concerned, there is only—silence!

But listen, if you will, to the remarkable story this silence tells about the "car of cars."

"Here," it says, "is a mechanism so flawlessly designed and so faultlessly engineered that every component performs with absolute perfection."

"Here is truly scientific styling—so basically good and sound that there is literally no noticeable resistance from wind or road."

"And here is craftsmanship so superb and so pains-

taking that not a trace of vibration can be heard."

And how eloquently it speaks of the satisfactions of Cadillac ownership!

It testifies to the rest and relaxation to be found at the wheel. It promises peace of mind... and greater driving safety. And it pledges dependability—and endurance—and economy of operation.

Clearly, no one can tell the Cadillac story as well—or as convincingly—as the car itself!

And if you haven't as yet "heard" this remarkable story, we hope that you will accept our invitation to come in and spend an hour at the wheel.

You'll agree, we're certain, that the 1955 Cadillac is its own best spokesman!

tonight at home against St. Joseph's.

Game time will be 8 p. m., with a DPU-St. Joe reserve tilt at 6. The Bengals have only one game remaining on the schedule—a road affair at Lake Forest Saturday.

A victory over St. Joseph's tonight would give Cal Luther's team a record of five wins and seven losses in loop action, duplicating the mark it compiled last year and assuring at least a tie fourth place.

Although the battle matches second-division teams, with DePauw two notches above St. Joe, both squads can think back to the season's first meeting at Col-

legeville when the Pumas took a hard-fought 89-77 win.

Also adding spice to the contest will be the presence of two record-breakers—St. Joe's 'Don Merki and DePauw's Bob Schrier. Both hold school scoring marks and rank first and third, respectively, in conference scoring.

The 6'4 Puma senior has scored more than 1300 points while at St. Joseph's for an all-time record and last year was named the league's MVP. Earlier this month Schrier cracked DePauw's one-year standard and Saturday at Hanover set a new all-time record with 694 points in less than two seasons.

The DePauw-St. Joe rivalry is a new one and began only last season when the Bengals entered the conference. Neither team has lost a home-court decision to the other, and the Pumas hold a 2-1 edge in victories.

CARD OF THANKS

Mrs. C. W. Crosby and family wish to take this opportunity to express their appreciation for all the kind expressions of sympathy from their many friends and neighbors at this time of bereavement with the passing of their loved one.

Hampshire Sow Has Twenty Pigs

Kenneth Johnson, son of Mr. and Mrs. Roy Johnson thought he had hit the Jack Pot for sure last Saturday night when his registered Hampshire sow, 'Hickory Hills Anna' gave birth to twenty pigs. Annie, as she is affectionately called by all the family, was too old to go to the Putnam Co. 4-H Fair last year so Kenneth took four of her grand-children. With these four he had champion gilt, reserve champion heavy weight barrow, first on light weight barrow and second on litter.

Since Annie is getting up in years he decided to replace her in the herd with his champion gilt but it was hard for him to part with his first 4-H gilt. So time went on and it was time for Annie to have more babies. We wonder if it will be any easier to see her leave the farm now.

Kenneth is a member of the Reelsville Plow Boys 4-H Club and the newly organized Reelsville Future Farmers organization.

Mr. Abel led the ten of hearts, and Mr. Champion won in his own hand to preserve dummy entries. He quickly cashed the ace and queen of spades and when that suit failed to break 2-2, he stopped to plan his play.

At this point Mr. Muzzy arose, walked around the table and took a look at all three hands (a lovely practice.) He quickly saw that if Mr. Champion led a small diamond from the board, he couldn't go wrong. A look at Mr. Abel's hand told him that if Mr. Champion elected to finesse the queen of clubs, that would work, too.

Mr. Champion was not so confident. He saw that a club finesse would give him twelve tricks—if it worked, also that a diamond lead from dummy would do the same thing providing Miss Brash had both ace and queen or either one of those honors—and he guessed which.

50-50 CHANCE

Either play was just a 50-50 chance. But, discarding both of

these plans, he hit upon a line of play which gave him odds of 6 to 1 in his favor.

To preserve a needed entry on the board, he abandoned trumps temporarily and led to the ace of clubs. He correctly figured that if clubs were divided 3-3 or 4-2 in the opponents' hands, he could establish a long club for his twelfth trick.

The plan would misfire only if the opponent holding the lone outstanding trump had one club or none at all.

Very good reasoning, but when the second high club was led Miss Brash promptly ruffed and laid down the ace of diamonds for the setting trick.

Mr. Muzzy was amazed. "Did you forget to count trumps or something?" he waived.

PERCENTAGE PLAY

Mr. Champion glared at him. "I never forget to count trumps," he said sternly. "I merely made the best percentage play."

"But all the finessees were right," Mr. Muzzy pointed out.

"The finessees were not the right plays on this hand," barked Mr. Champion.

Mr. Muzzy shrugged eloquently. "The wrong play and you make the hand; the right play and you go down," he said. "You experts give me a pain in the neck."

8 Bills Passed By Legislature

INDIANAPOLIS, Feb. 22.—(UP)—Bills passed in the Indiana Legislature late Monday included these which would:

Require bus companies to notify cities 20 days in advance of proposed fare changes (Senate: 33-5).

Subject habitual drug addicts to \$100 fine and 60 days in jail (House: 73-1).

Authorize issuance of search warrants for narcotics (Senate: 40-0).

Allow counties to pay deputy surveyors 10 cents mileage or furnish them a car (Senate: 51-8).

Extend social security to persons covered by the Public Employees Retirement Fund (House: 75-0).

Prevent townships from losing

bonding power in school consolidations (Senate: 35-8).

Allow South Bend to levy a track elevation tax (Senate: 40-0).

Prevent county assessors from taking pay loss unless population drop was more than five per cent (Senate: 35-5).

Hines, R-Portland, tried to blast out of committee a bill liberalizing property tax exemptions for veterans. His motion lost, 40-32.

FILLMORE'S CHEER LEADERS

The above trio of high school youngsters will be much in evidence in the Greencastle gymnasium during this week's sectional tournament as they lead the Fillmore fans in cheering the Cardinals. The yell leaders, left to right, are Rita Robinson, Bill Jones, Peggy Broadstreet.

700,000 TONS OF COAL

ON HAND to help assure your dependable electric service!

● Coal is the most economical source of energy for generating electricity in Indiana. Because it is so important, over 700,000 tons are held in reserve at the generating stations of Public Service Company of Indiana. This "stockpile" safeguards against emergencies . . . assures enough coal for more than 100 days' electric power needs, if the normal flow of coal from mines to the generating stations should be interrupted for any reason.

Yes—there are many things back of your electric service that help assure its twenty-four hour dependability. More than 2,700 trained employees of this Company are at your service . . . an investment has been made to date of approximately \$315,440,657 in generating stations, transmission and distribution facilities . . . tons of other materials and supplies are kept always "on hand." Altogether, it's a mighty big job to provide the farms, homes, businesses and industries we serve with ample electric power, but it's *our* job . . . we're trained for it . . . and we're proud of the part we have played in making it true that Indiana has *never* had a power shortage.

Mardi Gras In Last Wild Day

NEW ORLEANS, Feb. 22 (UP)—Funmakers reigned supreme today on the Mardi Gras climax of two-week carnival.

A SURGICAL TEAM is shown performing emergency operation on Mrs. Doris Grayson, 36, for removal of tubercular part of her lung in National Jewish hospital, Denver. On wall are X-Rays for guidance of the team, which included seven surgeons. The operation was complicated by fact she was a so-called bleeder and has a rare O-negative blood type. Twelve selected blood donors stood by in a room. Ten pints of blood were used during the operation, with a police car racing donors from hospital to a blood bank, and racing back again with fresh blood. Mrs. Grayson is expected to resume normal life after convalescing. (International)

time which has been marred by two plane crashes fatal to six visitors and open riots.

Thousands of masked and costumed celebrants flooded the streets and famed bars as subjects of Rex, Lord of Misrule, who ruled supreme on this SAT Tuesday from sunrise to sunset.

down. Rex shares his command with Zulu King, the Negro Mardi Gras chieftain, who rules over his subjects on this last official day of carnival which ends when the 40-day Lenten season of penitence begins at midnight.

Already this was the most mixed of the past 127 carnival seasons. Two plane crashes, one of them late Monday, killed a total of six visitors to the fest. The second plane crash followed only a few hours the worst overflow of carnival spirit here since a nude woman rode a horse up spacious Canal Street several years ago and set off pandemonium.

The Mardi Gras revelry boiled over into riots in the French Quarter Monday, where at least 15 persons were injured and 100 arrested. Seven of the injured

were policemen who finally quelled the series of disorders.

All members of the 1,000-man New Orleans police force were called on duty today and a double guard was ordered up in the French Quarter, center of the revelry, to prevent any further outbreaks.

Congress Hears Farewell Address

WASHINGTON, Feb. 22. (UP)—The House and Senate celebrated George Washington's birthday by hearing a reading of the first President's most famous political testament—his farewell address.

The address, which never was delivered orally to the public or the Congress, was scheduled to

be read in the Senate by Sen. Prescott Bush, R-Conn., and in the House by Rep. William C. Cramer, R-Fla.

It was expected the reading would take less than an hour. Former Rep. John W. Flannagan, D-Va., once raced through it in 34 minutes.

In his address, Washington warned against this country becoming too involved in foreign affairs and against the machinations of political parties which he said could have "baneful effects" on the operations of the American government.

Contrary to popular opinion the phrase "no enduring alliances" This phrase was first used in President Jefferson's first inaugural address in 1801, but, because of the similarity to Washington's thesis, has been attributed to the farewell address.

The address was written by President Washington in 1796, as he was nearing the end of his second term in the presidency and was contemplating retirement at Mount Vernon, his Virginia plantation.

Wishing to give the American people his written political advice, he summoned David Claypoole, a highly-respected Philadelphia printer, to the executive mansion, and presented him with the 7,641-word "farewell address."

Claypoole ran off a proof of the address, Washington made some corrections in the punctuation, and it first appeared in Claypoole's newspaper "Claypoole's American Daily Advertiser," on Sept. 19, 1796.

Sometime later, Claypoole requested and received the original manuscript of the address, which is now in the New York Public Library.

which is now in the New York Public Library.

37 KILLED

LONDON, Feb. 22.—(UP)—Thirty-seven persons were known dead today in storm-battered Europe and weathermen predicted more snow and cold.

Heavy snows, whipped into blizzards by 70 mile an hour winds, have battered the British Isles and much of the continent since the weekend. Experts of the Air Ministry Weather Bureau in London said there was no indication of an early break in the weather.

The snow blanket spread from Ireland eastward to Hungary. It was accompanied by freezing temperatures and strong winds.

Britain and Italy were hit hardest. Even the normally sunny Riviera of France felt the icy breath of winter.

NEW 198-HP MONTCLAIRS PROVE THEIR NEW SUPER-TORQUE BY PICKING UP SPEED ON 28% GRADE AT TEST-TRACK IN DEARBORN, MICHIGAN

NEW 198-HP BEAUTY PICKS UP SPEED CLIMBING 28% GRADE

More power where it counts
from Mercury's new Dual-Exhaust
SUPER-TORQUE V-8 engine

There's a lot of talk about horsepower these days. The numbers go up and up. But what does all this extra power do... for you behind the wheel? This picture tells part of the story. There's so much power delivered at the wheels of this new 198-hp Mercury Montclair that you can actually pick up speed while climbing the steepest hill you can find. This is one graphic way of demonstrating the kind of instant super-torque power you have at your command in every 1955 Mercury.

More top speed is of little value to most motorists. Cars already can go far faster than most legal speed limits. You want extra power in the normal, everyday speed ranges where you do 95 per cent of your driving.

And that's exactly where the 1955 Mercury concentrates its new performance. Pickup and passing power has been boosted in all the most-

used speed ranges. Test-track comparisons between 1954 and 1955 models show average acceleration increases as follows: from 0 to 30 miles per hour—30 per cent greater, 0 to 60 miles per hour—22 per cent greater, under passing conditions (30 to 60 miles per hour)—22.5 per cent greater.

Used properly, this lightning-fast power gives you an extra margin of safety to use where and when you need it most. And to add to Mercury's margin of safety—there are new, 20% larger brakes that stop you faster than before. Also adding to your driving safety is ball-joint front suspension—further improved this year to give you easier, steadier turning as you take curves and corners.

We've said nothing about styling—and now there isn't room. But Mercury's all-new, lower, longer bodies are speaking for themselves right now at your dealer's. Why not stop in—soon!

Don't miss the big television hit, Ed Sullivan's "TOAST OF THE TOWN", Sunday evening 7:00 to 8:00, WFEM, TV, Channel 6.

EAST SIDE MOTORS

STILESVILLE ROAD -- GREENCASTLE

YOUR LINCOLN - MERCURY DEALER
